Madeira's

Madeira is a drink with a remarkable history. It owes its name to the island of Madeira in the middle of the Atlantic Ocean. Its unique flavor comes from repeatedly warming the wine. This was once done unintentionally when the island was still a key supply point for trading voyages. Voyages through the tropics warmed the wine, imparting a rich flavor. Our Madeiras are made using the Canteiro Method, where the wine is aged in barrels in heated rooms or outdoors in the sun.
